

AMENDED CLAIM SET:

1. – 23. (cancelled).

24. – 28. (cancelled).

29. (currently amended) ~~The~~ A 1,5-disubstituted benzimidazol-2-one compound derivative ~~of claim 24, which is~~

1-(5-chloro-2-hydroxyphenyl)-5-chloro-1,3-dihydro-2H-benzimidazo-2-one; ~~or~~

~~1-(5-trifluoromethyl-2-hydroxyphenyl)-5-chloro-1,3-dihydro-2H-benzimidazo-2-one;~~

or a pharmaceutically-acceptable salt thereof.

30. (currently amended) A pharmaceutical composition comprising a therapeutically effective amount of the 1,5-disubstituted benzimidazol-2-one compound derivative of claim 29 ~~[[24]]~~, or a pharmaceutically-acceptable addition salt thereof, together with at least one pharmaceutically-acceptable carrier or diluent.

31. (currently amended) The pharmaceutical composition of claim 30, which composition also comprises a ~~further~~ chemotherapeutic agent.

32. (currently amended) A method of ~~treatment, prevention or alleviation of a disease or a disorder or a condition of~~ increasing the blood-brain barrier permeability a mammal, including a human, ~~which disease, disorder or condition is responsive to modulation of BK_{Ca} channels;~~

which method comprises the step of administering to such a living animal body in need thereof, a therapeutically effective amount of a 1,5-disubstituted benzimidazol-2-one compound derivative of claim 29 [[24]], or a pharmaceutically-acceptable salt thereof.

33. – 36. (cancelled).

37. (currently amended) The method according to claim 32 [[36]], ~~for the manufacture of a medicament useful for~~ which method comprises co-administration of a chemotherapeutic agent.

38. – 40. (cancelled).

41. (currently amended) A kit-of-parts useful for enhancing the delivery of a medicament to the brain, which kit comprises:

[[A]] the 1,5-disubstituted benzimidazol-2-one compound derivative of claim 29 [[24]];

[[A]] a chemotherapeutic agent; and

~~Instructions~~ instructions for using the 1,5-disubstituted benzimidazol-2-one compound derivative for enhancing delivery of the chemotherapeutic agent to the brain.
